

# Lobby Track

## Innovative Visitor Management Software

Lobby Track is the world's leading visitor management and tracking system, allowing organizations to register, badge and track visitors at their facilities. Centralized management, networked data-sharing and reporting makes it easy to deploy across multiple stations and locations. Allow visitors to self-register and check in and out at unattended kiosks. Perform automatic, immediate background checks for enhanced security. The open data architecture allows easy integration with existing access control systems, HR databases and Active Directory.

## Complete Tracking Solution

- Track visitors or any other group of people
- Pre-register visitors online
- Customizable self-registration kiosk mode with photo capture, NDA and other optional steps
- Check against local watch list or perform online background check
- Print expiring paper badge or plastic ID card
- Add to access control system
- Check in or out by swiping mag stripe or scanning barcode
- Lookup records by entering personal information and print replacement cards
- View or print emergency evacuation reports
- Create detailed logs, reports and charts

## The Lobby Track Advantage

### Configurable Visitor Database

Select one of the pre-configured visitor databases or easily connect to your existing database. Define database fields that pertain to your situation. Layout fields using drag-and-drop tools, create drop-down lists, set default values and auto-format data. Import records from Excel, CSV files or other databases.

### Fast Registration

Use attended registration stations or allow visitors to self-register at kiosks. Import data instantly through your online registration system or use Lobby Track Online Registration to allow employees to pre-register their visitors. Scan visitor information from a driver's license or business card. Initialize default values. Automatically notify host when visitor arrives. Check for duplicate records automatically.

### Issue Professional Visitor Badges

Design professional ID cards and visitor badges using an integrated version of Jolly's card design suite: ID Flow. Choose from 20+ barcode types. Encode magnetic stripes. Print badges automatically after registration. Set rules to prevent duplicate badge printing.

### Access Control Integration

Automatically add visitors to your access control system. Issue access control badges or self-expiring time badges. Open turnstiles or other door controls. Encode smart cards and RFID.

# Lobby Track

## Specifications

### Databases

Microsoft Access  
Microsoft SQL Server  
Microsoft Excel  
Microsoft Visual FoxPro  
Oracle  
Sybase  
MySQL  
dBase  
Includes Sample Database  
ODBC / OLE DB Compliant

### Barcodes

Code 39  
Code 128  
Codabar  
QR Code (2D)  
PDF417 (2D)  
DataMatrix (2D)  
Many More

### Printers

Dymo  
Evolis  
Zebra / Eltron  
Fargo  
Datacard  
UltraMagicard  
DNP  
Nisca  
HiTouch  
EDI Secure  
Laser and Inkjet Desktop Printers

### Devices

Cameras and Webcams (TWAIN / WIA)  
Canon SLR Series: EOS Rebels  
ScanShell 800 / 1000  
SnapShell  
Topaz Signature Pads  
Integrision Signature Pads  
Turnstiles and other entry gates

### Templates

CR-80, CR-50, CR-79, CR-90, CR-100  
2500+ Avery and Other Paper Badges

### System Requirements

Microsoft Windows XP/2003/Vista/7  
Pentium 4 1.8 Ghz  
2 GB RAM  
100 MB Free Disk Space

## Feature Highlights

- Scan driver's license, ID cards, and passports for fast and reliable data entry
- Integrate with existing HR and access control systems
- Use with mobile barcode scanners
- Open and close turnstiles
- Lookup host information in Active Directory / LDAP
- Run in normal or unattended kiosk mode
- Check registrant against local watch list
- Perform automatic online background check
- Configure check in rules
- Check people in and out in the background while performing other tasks
- Display on-screen messages
- Automatically update record fields after registration, check in, check out and badge printing
- Capture and log additional data such as project, job and accounting codes during check in and out
- Log time and attendance with exportable data capabilities
- Create detailed reports and charts such as visitor history and facility usage
- Link and manage multiple locations
- Customize record screens, change colors and field order, create pull down lists, date fields and more
- Capture photos using a Canon EOS Digital Rebel XS, XSi, T1i or TWAIN / WIA compatible camera
- Search for specific visitor records from thousands of records using flexible search tools
- Design visitor badges using the integrated card designer
- Add text graphics, photos, 1D and 2D barcodes, magnetic stripes, RFID, watermarks and much more to the card design

## Available in Several Editions

- Standard
- Premier
- Scan Station
- Report Station
